## STRENGTHENING PUBLIC FINANCE CAPACITY FOR GREEN INVESTMENTS IN THE EASTERN PARTNERSHIP (EaP) COUNTRIES

### Launch event of project “Designing Green Public Investment Programme and Conducting Training in Azerbaijan”

#### DRAFT AGENDA

Thursday, 17<sup>th</sup> June 2021, 11.00–12.30, Baku time (UTC +4)

Zoom platform

English–Azerbaijani simultaneous interpretation will be provided during the meeting  
**Please register for the meeting here ([link](#))**

Action implemented by:

## Background

The EU-funded EU4Environment Action supports countries in the EaP region, including Azerbaijan, to improve national governance and regulatory mechanisms that support transition to a greener and more sustainable development path. Efficient and effective public expenditure is important in meeting environmental and climate-related objectives.

Activity Area 3.3 of EU4Environment, and its Work Plan for Azerbaijan, provides technical assistance to increase the capacity of government authorities to better manage public environmental expenditure.

The main objective of the proposed project “Designing Green Public Investment Programme and Conducting Training in Azerbaijan” is to equip the government officials and experts in Azerbaijan with know-how and practical skills on designing a public environmental expenditure programme. Such programmes help to obtain adequate resources from the public budget and leverage international co-financing for its implementation. The programme will be designed in line with international good practices and can serve as a model for preparing other low-carbon public investment programmes within national medium-term expenditure frameworks (MTEFs).

## Meeting objectives, expected outputs and outcomes

The objective of the meeting will be to launch the implementation of the project “Designing Green Public Investment Programme and Conducting Training” in Azerbaijan.

The expected outputs are:

- an agreement on the key elements of the project (scope of the programme, implementation modalities), and
- awareness raised about the water supply sector in Azerbaijan, which is the project focus.

## Participants

The meeting will gather officials from the Ministry of Ecology and Natural Resources of Azerbaijan and their invited experts, representatives of other Ministries, municipal governments, donors, IFIs and NGOs involved in the sector, the EU4Environment and other EU programmes in Azerbaijan. The meeting will be facilitated by the OECD and experts from Kommunalkredit Public Consulting (KPC).

## About EU4Environment

The “European Union for Environment” (EU4Environment) aims to help the six partner countries: Armenia, Azerbaijan, Belarus, Georgia, Republic of Moldova, Ukraine preserve their natural capital and increase people's environmental well-being, by supporting environment-related action, demonstrating and unlocking opportunities for greener growth, and setting mechanisms to better manage environmental risks and impacts. The Action is funded by the European Union and implemented by five Partner organisations: OECD, UNECE, UNEP, UNIDO and the World Bank based on a budget of some EUR 20 million. The Action implementation period is 2019-2022.
