- for Armenia, Azerbaijan, Georgia, Moldova and Ukraine
- currently in inception phase
- implemented until June 2024
- building (in smaller scale) on previous
  - European Water Initiative (EUWI+) and
  - Shared Environmental Information System (SEIS East) projects
- two Components organized in partnership between EU Member State and international organisations

Funded by the European Union

# OUTPUTS LEAD

River basin management plans  
Water allocation  
Stakeholders' involvement

Water monitoring

Economic soundness of strategies  
Finance mobilisation

Water and health  
National policy dialogues  
Transboundary cooperation

## Component 1 Water Resources

Open data  
Water accounting  
Land and agriculture  
Air and waste  
International sharing of data

## Component 2 Environmental Data

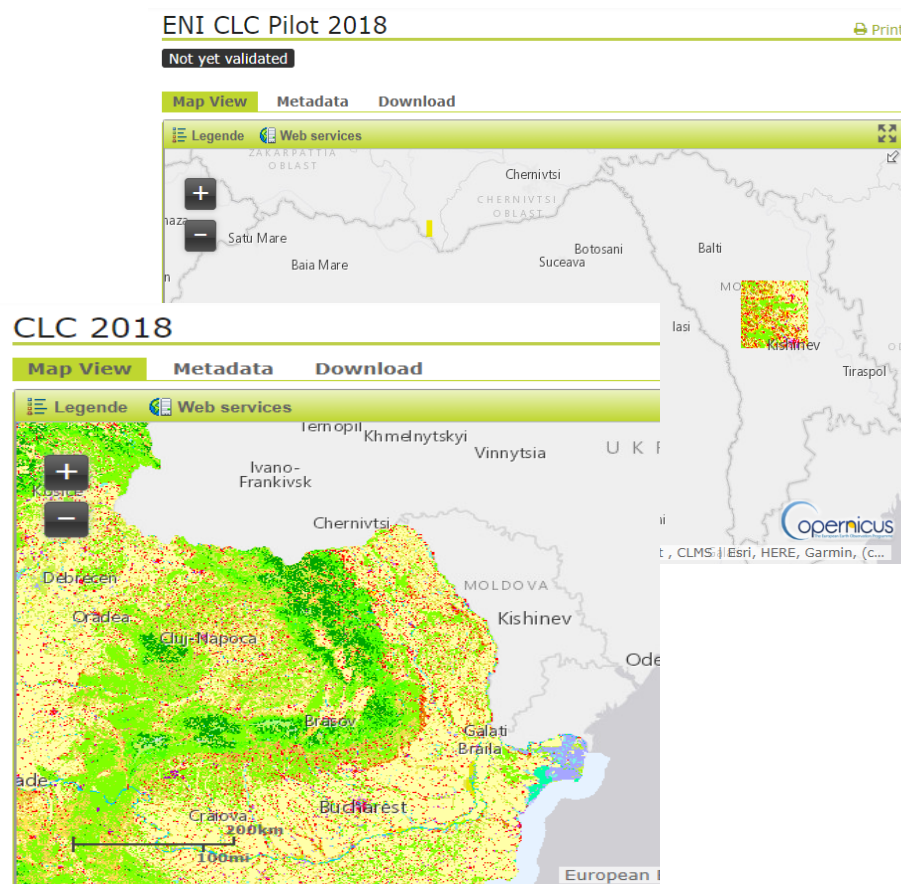

Funded by  
the European Union

## ENVIRONMENTAL MONITORING AND DATA USE

Will be addressed regarding

- water monitoring including laboratory training
- use of water accounts
- Corine Landcover mapping (completing the national coverage for Moldova)

Funded by  
the European Union

## ENVIRONMENTAL MONITORING AND DATA USE

Will be addressed regarding

- air quality data (including European air quality index)
- national air pollutant emission inventory
- waste management data
- open data and international reporting (co-operation with European Environment Agency and UN-ECE)
- Green growth and environment indicators at OECD platform (Moldova well prepared 😊)

Funded by  
the European Union
