Saving energy and water and making production cleaner: How enterprises working in Cahul could benefit from EU support?

19 July 2022, 14:00-15:15 (EEST),
web-based video conference

The objective of the meeting

- To inform about the “European Union for Environment” Action (EU4Environment);
- to demonstrate the benefits for implementing the RECP methodology in manufacturing companies;
- to inform about the principles and advantages of the RECP Club in Cahul;
- to provide information about the conditions of participation in the RECP Club in Cahul.

Participants

The meeting will bring together representatives of manufacturing companies and experts from the RECP Centre, municipal authorities and other support institutions.

Practical Information

The presentation of saving energy and water and making production cleaner: How enterprises working in Cahul could benefit from EU support? - will be organized on July 19, 2022 (14:00 - 15:15 (EEST)). The event will be delivered online using the Zoom platform and will be hosted in Romanian and Russian languages.

The interested participants should register in advance in order to participate in the presentation of the RECP Club in Cahul: Advantages and Opportunities for Companies.

To register, please fill in [the form](#).

Background

The Resource Efficient and Cleaner Production (RECP) Clubs are part of the “Circular Economy and New Growth Opportunities” Component implemented under the regional “European Union for Environment” (EU4Environment) Action.

About EU4Environment

The **EU4Environment** Action aims to help the EU’s Eastern Partner countries preserve their natural capital and increase people’s environmental well-being, by supporting environment-related action, demonstrating and unlocking opportunities for greener growth, and setting mechanisms to better manage environmental risks and impacts.

The Action is funded by the European Union and implemented by five Partner organisations: OECD, UNECE, UNEP, UNIDO and the World Bank based on a budget of some EUR 20 million. The Action implementation period is 2019-2023.
