Green Economy in Eastern Partner Countries

## Consultation workshop Status on EPR implementation for WEEE and further opportunities for its improvement

### Agenda

10 November, 10.00, Europe Café

Action implemented by:

Meeting Venue: **Europe Café, Strada Alexei Șciusev 97**

**Consultation workshop**  
**Status on EPR implementation for WEEE and further opportunities for its improvement**

**10 November, 10.00, Europe Café**

### **Background**

Since the Republic of Moldova intends to update the legal framework for the implementation of Article 12 of Waste Law, there is an urgent need to better understand the conditions under which EPR systems can perform well and how they deliver best results. To address this knowledge gap, it is important to develop an independent study that analyses the performance of different EPR schemes and provides recommendations for the effective implementation of existing and upcoming requirements.

### **Meeting objectives, expected outputs and outcomes**

- to present the findings of status on the EPR implementation in Moldova, gap analysis report and technical review of selected EPR schemes in regards to their technical, environmental and economic performance;
- to discuss recommendations to address identified shortcomings in implementing the EPR legislation for WEEE in Moldova:
- to define recommendation to increase efficiency on EPR implementation and suggest legal amendments.

### **Participants**

The meeting will gather participants from the **competent authorities, business community, various stakeholder groups and interests from industry (producers, association)**.

### **Practical Information**

Hybrid meeting (on-site in Chisinau, Republic of Moldova and virtually using Zoom connection)

### **About EU4Environment**

The “European Union for Environment” (EU4Environment – Green Economy) Action helps the Eastern Partnership countries preserve their natural capital and increase people's environmental well-being, by supporting environment-related action, demonstrating and unlocking opportunities for greener growth, and setting mechanisms to better manage environmental risks and impacts.

It is funded by the European Union and implemented by five Partner organisations - OECD, UNECE, UNEP, UNIDO, and the World Bank – over 2019-2024 period, with a budget of EUR 20 million.
