

Memorandum of Cooperation between UNEC and ACE Group Consultants

RECP funds for the 2024-2025 academic
year

Speaker: Mirlazim Dadashov

Memorandum of Cooperation between UNEC and ACE Group Consultants (March 15, 2024)

This Memorandum was signed for strengthening University-Industry Cooperation, as well as for sharing modern knowledge and experiences of the EU4Environment program aimed at resource efficiency, cleaner production (RECP) and circular economy through transition to green economy for achieving sustainable development in the Republic of Azerbaijan, for joint training, preparation of educational programs, textbooks, and implementation of local and international projects.

Objectives of the Memorandum of Cooperation

Work on research and textbooks that cover combination of academic and industry knowledge to solve real-world problems related to RECP

Organize joint meetings and workshops to discuss research findings, project updates and educational initiatives related to resource efficiency and cleaner production (RECP) and the circular economy

Organize joint projects at the national and international level envisaging sharing of academic experience and industry insights

Conduct relevant classes and provision of expert-consulting services on other modern educational technologies by ACE Group Consultants specialists to provide constant informational support to the University's Education Program, and create conditions for leading experts of ACE Group Consultants to participate in the educational process in the relevant educational fields

Provide assistance in the field of expert advice and information support in the preparation of the research works of the students studying in the corresponding specialties of UNEC, and the dissertation topics of the graduate students

UNEC students to have on-the-job internship at the ACE Group Consultants

To ensure the sustainability of cooperation

- **Add the subject(s) related to RECP to the curricula in relevant specialties**
 - **Create an advanced program related to these subjects**
 - **Prepare teaching materials with modern standards based on the program**
 - **Involve and participating of RECP experts in the educational process, both directly and indirectly**
 - **Organize regular training, seminars and workshops related to RECP**
 - **Write subject related dissertations and works related to other relevant matters**
- 

Thank You!
